Subject: [K-STATE_TURF] K-state Turf: trees and winter damage

I came across this article about trees and winter (freeze and ice) damage. It is written by a specialist from Missouri, and was posted on the Western Nursery and Landscape website.

Follow this link:

http://www.wnla.org/news_list.php?artic_idx=386

After 65 degrees last Thursday, and then teens over the weekend, I'm pretty sure I am suffering some winter damage, myself.
