**Subject:** [K-STATE\_TURF] K-State turf: dollar spot info for golf courses

Hello,

I got a message about dollar spot gone wild in some golf courses in SE Kansas.

For those of you battling dollar spot, you might be interested in this website that lists some information about fungicides:

<http://www.oznet.ksu.edu/library/plant2/EP131.pdf>

I've posted it before, but it's probably time to post it again. I put it together about 1.5 years ago so not every new product is on there but it's fairly up to date.

If you are not getting the control you think you should be getting, feel free to contact me.
